

AGSTREME™ B-MO

Nutritional

Put Plants on the Fast Track to Higher Yields

Boron is one of the most common micronutrient deficiencies. Boron positively impacts vegetative and reproductive growth, cell and tissue growth and reproductive capacity.

Molybdenum is the micronutrient that aids in nitrogen utilization and sulfur metabolism.

AGSTREME™ B-Mo is designed for maximum nutrient mobility and performance, and is one of the most efficient and user friendly forms of boron available.

PRODUCT BENEFITS

- Provides up to 8x more efficiency and mobility than 10% boron
- Highly soluble and stable across a broad pH range
- Boron will not precipitate when it comes in contact with acidic solutions
- Compatible with other micronutrients, including Zn and Ca
- Compatible with insecticides, herbicides and fungicides that have very specific pH ranges

AGRONOMIC BENEFITS

Boron: Boron provides structural integrity and flexibility to the primary cell walls. It also improves vegetative and reproductive growth.

Molybdenum: Molybdenum is involved in many functions within the plant. It aids nitrogen and sulfur metabolism, as well as aids in hormone biosynthesis and toxic compound transformation. It is essential to root nodulation formation in legumes; and helps convert N₂ to ammonium and converts nitrate to nitrate.

ACTIVE INGREDIENTS

Guaranteed Analysis

Boron (B)	5.00%
Molybdenum (Mo)	0.50%

Derived from boric acid and sodium molybdate.

APPLICATION RECOMMENDATIONS

Foliar Application

Apply 0.5-1 pint per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.

Soil Application

Use 1-3 quarts per acre.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.

PRODUCT AVAILABILITY

Products are available in both 2.5 gallon jugs and 250 gallon totes.
