PLANTER BOX TREATMENT & MICROBIAL SYSTEM FOR OPTIMIZING NUTRIENT UPTAKE TO BUILD ROOT MASS

UNLEASHED™ SOYBEAN is a best-in-class 80/20 talc/graphite combination that ensures optimum performance in today's high-speed planters. Specifically designed to fix Nitrogen and enhance overall crop performance while taking the place of any seed fluency agent.

The base product also includes Iron and Manganese. These micronutrients are essential building blocks to drive fast emergence and strong, healthy plants.

UNLEASHED™ SOYBEAN is powered by BIO-CAPSULE TECHNOLOGY™ - a patented delivery system that helps farmers save time, labor and fuel. The BIO-CAPSULE TECHNOLOGY™ carrier system allows for the addition of multiple biological solutions safely packaged for convenient deployment at planting.

The UNLEASHED™ SOYBEAN BIO-CAPSULES are charged with TERRASYM® and a proprietary triple-stack RACEREADY™ Bradyrhizobia inoculant. See diagram below.
